| FROM: | Bernita W. Demery, CPA, MBA, Director of Financial Services |
| DATE: | June 27, 2017 |
| SUBJECT: | Major Fund Financial Month-End Report – As of June 25, 2017 |

This is a financial snapshot for the year to date net results as of June 25, 2017. The current period represents the fiscal year through the current date, approximately 99% of fiscal year 2017. The results show a comparison of the year-to-date through June 25, 2017 to 2016 fiscal year end for revenues, expenses, and transfers. Significant variances from the prior period(s) will be noted. Staff has also included a year-end projection discussion.

General Fund Summary:

The following is a summary of the General Fund through June 25, 2017 on a year to date basis:

| | GENERAL FUND SUMMARY AS OF JUNE 25, 2017 | | | | | | | | | |
|-----------|--|---------------|-------------------|--------|---------------|---------|--|--|--|--|
| | 2017 | FY 2016 | \$ | % | 2017 | % REC./ | | | | |

| NET | <mark>\$ 537,990</mark> | \$ 197,480 | \$ 340,510 | >100% | | 9 | | | | |

For the current year through June 25, 2017, the net result increased more than 100% compared to the 2016 year end. This increase is due to the transfers completed in 2017, specifically the Imperial Site project transfer from the General Fund of \$1,040,000, and \$1,545,864 in transfers to the Recreation and Parks Capital Project Fund to move the Tar River Project, Town Common Project and the Westside Land Acquisition Projects to a multi-year fund.

- **PROPERTY TAX:** This revenue source accounts for approximately 38% of the overall budget. The 1% increase over the last year is consistent with budget expectations given the growth based on property revaluation. This category is expected to be slightly under budget for fiscal year 2017.
- SALES TAX: Sales Tax revenues make up 21% of the overall budget. This category is currently lower than the 2016 fiscal year end due to the City's receipt of Sales Tax being two months after the period collected, leaving two additional Sale Tax collections in the current fiscal year. However, Sales Tax is projected to exceed the budget amount due to increased spending related to construction in the City.
- MOTOR VEHICLE: Motor vehicle fees have increased by 13% due to the increase from \$20 registration fee to \$30. This category is expected to slightly exceed budget for the fiscal year with the receipt of the last month of Tax and Tag Collections.
- **INSPECTIONS:** The year to date increase of more than 100% can be attributed to an increase in permits issued in FY 2017 for the new Mayne Pharmaceutical Plant and other major construction projects within the City. This category has already exceeded budget for the fiscal year.
- **RESCUE:** The year to date decrease of 18% can be attributed to vacancies within the Collections division as well as increased processing time due to training incoming and temporary staff. Although the Division is actively working to catch up, Rescue fee revenue is expected to be under budget for the current fiscal year.

- INVESTMENT EARNINGS: Year to date, this category decreased by 25%, due to the variance in the market each month. Based on this market variance, fluctuations from month-to-month will vary. Projections for this source are expected to come in just under budget.
- GUC TRANSFER IN: The decrease of 10% is due to the change in the allocation received from GUC and the timing of the receipt of the revenue for the current period. This allocation is equal to six percent of the difference between the electric and natural gas system's net fixed assets and total bonded indebtedness plus 50% of GUC's total cost of service for the City's public lighting. Projections show that the City will exceed budget based on discussions with GUC to normalize the periodic average of the transfer.
- ALL OTHER REVENUE: The increase of 30% is due to federal forfeiture, Economic Development grant money
 and the one-time sale of the Police / Fire parking lot. This category is expected to be under budget for FY 2017
 due to the timing of the reimbursement for the Safe Walks to Schools streets project.

Expenses have decreased 5%, year to date. Personnel expenses experienced the largest increase, while the other categories (Operations, Capital Outlay, and Capital Improvements) fluctuate year-to-year due to the timing of payment for various items. A brief explanation is provided below:

- PERSONNEL EXPENSE: The City was affected by Hurricane Matthew in October and November, which had
 the effect of increasing personnel costs associated with storm cleanup and public safety efforts. Staff is working
 to obtain FEMA reimbursement for those expenses as quickly as possible. Overtime expenses have also
 significantly increased as a result of the Police Department fully implementing the change to the Emergency Call
 Back policy that was approved by Council in September of 2015. The market adjustment to all City personnel
 was 2% for FY 2017. Note also that the Personnel Expense budget for FY 2017 includes a 1% increase in the
 vacancy rate adjustment, to approximately 4% to account for projected vacancies throughout the fiscal year.
- OPERATIONS: Operations have decreased 13%, year to date, due to the timing and accrual reversal of worker's compensation loss payments in FY 2016.
- CAPITAL OUTLAY: Capital Outlay expenses have increased 17%, year to date, due to Federal Forfeiture spending by the Police Department for various purchases in the current fiscal year.
- CAPITAL IMPROVEMENTS: Capital Improvements for the City have increased by 41% due to the number of
 projects the City has completed to date, such as sidewalk construction costs and Economic Development grant
 expenses.

| | | | | | | | | | |

Overall, departmental spending fell within the expected limit as a percentage of budgets. Total department expenses have decreased by 5%, year to date. Departmental variances greater than +/- 10% noted below:

- CITY MANAGER: The year to date increase of more than 100% is in part due to the addition of Economic Development division to the City Manager's Office for FY 2017. For FY 2016, the Economic Development division was located in the Community Development Department. The increase can also be attributed to the fact that there were vacancies within the Public Information Office in FY 2016.
- HUMAN RESOURCES: The 41% decrease, year to date, is due to a change in the timing of workers' compensation premium and loss payments, as well as the timing for those payments in FY 2016.
- INFORMATION TECHNOLOGY: The 12% decrease, year to date, is due to decreased contracted services expenses in the current fiscal year.
- COMMUNITY DEVLOPMENT: The 11% decrease, year to date, is due to the movement of the Economic Development division to the City Manager's Office in FY 2017. While the movement of Economic Development significantly decreased expenses within Community Development, the impact was affected by the addition of the Code Enforcement division to the department.
- OPEB CONTRIBUTION: The year to date increase of 11% is due to the OPEB payment in FY 2017 compared to FY 2016, increasing from \$450,000 to \$500,000.

The year to date increase in transfers is due to an effort to create a higher level of timeliness in the transfer of funds from the General Fund. Year to date, 96% of all General Fund transfers have been completed with all budgeted transfers expected to be completed during the fiscal year.

The following is a summary of a few of the transfers with significant variances as compared to the prior year:

<u>Capital Reserve:</u> Transfer of \$467,119 budgeted for the Sidewalk Development / City employee parking project. This transfer will increase the amount in the Capital Reserve Fund for the project to approximately \$1.9 million.

<u>R&P Capital Projects:</u> Transfer of \$1,876,864 budgeted to fund the following capital projects:

| Town Common Renovation | \$ | 985,932 |
|------------------------|----|-----------|
| South Greenville | | 416,000 |
| West Land Acquisition | | 149,000 |
| Tar River Legacy Plan | - | 325,932 |
| Total | \$ | 1,876,864 |

<u>Street Improvements:</u> Transfer of \$1.7 million represents budget transfer to the Street Improvements Fund for street resurfacing projects.

Revenues provided above do not include the \$4.3 million of budgeted fund balance in the projections. While the City has budgeted \$4.3 million of fund balance to be used, the final amount used will be determined by the results of all operational and capital activity for the remainder of the fiscal year. Please note the items below:

- Based on the results as of June 25, 2017, it is estimated that revenues will exceed expenses by \$1,627,200, as of June 30, 2017.
- There were expenses incurred in FY 2017 for Safe Walks to Schools, a project funded by a reimbursable grant, which will not receive the reimbursement of \$503,000 until FY 2018.

The year to date net result in the Transit Fund decreased greater than 100%, compared to the prior year. Although Transit currently has a deficit for the current fiscal year, the fourth quarter reimbursement will be submitted.

Revenues: Transit revenues have decreased by 27%, year to date. Grant revenues are down, specifically due to capital reimbursements for GTAC being incorrectly posted within the Transit Fund instead of the GTAC Capital Project, which was corrected in a later period. Bus fares and ticket sales are down due to a decrease in ridership experienced in the current fiscal year. There was also a change in the allocation of the General Fund transfer for the current year, resulting in lower revenue.

Expenses: Total expenses have increased 7%, year to date. Capital expenses decreased due to increased expenses in 2016 as a result of the GTAC property purchase. The increased operating expenses in the fund for FY 2017 were due to the reclassification of transit capital assets affecting the depreciation recorded during the period. The increase in transfers was a result of a budgeted transfer to the Intermodal Project, in accordance with the current year FTA Grant Operating Plan.

Like all other aspects of the City's operations, the Sanitation Fund has been impacted by Hurricane Matthew. Personnel expenses are up, due to the additional hours worked to catch up after the storm.

Revenues: Sanitation revenue decreases are largely due to the timing of the final month's collections being recorded for the current fiscal year. In addition, sales and services have increased due to an increase in cart and dumpster receipts.

Expenses: The Sanitation Fund's FY 2017 financial operations are being influenced by an initial repayment to the Vehicle Replacement Fund. Approximately, \$237,816 of the fund's year to date negative variance can be attributed to repayment of this transfer to the Vehicle Replacement Fund (i.e. Transfer Out). Expenses have increased, year to date, due to additional fleet fixed costs associated with additional side loaders, as well as the timing of expenses related to the Multi-Family Recycling Center.

The Stormwater fund has experienced an improvement in net results based on the seven-year plan. The operation has implemented an annual fee increase in an effort to allow the fund to cover future expenses.

Revenues: Stormwater revenues are experiencing a 2% increase over last year's revenues due to the fee increase.

Expenses: Stormwater expenses vary significantly according to the amount of Stormwater maintenance activity and the timing of capital projects. Operating expenses fluctuate based on timing differences of when items are paid. The year to date decrease of 43% in operations is due to the timing of payment for the 2006 Public Improvement Bond, which occurred in the prior year as well as decreases in stormwater-related supplies compared to the prior year. The decreases in Capital Improvement and Capital Outlay are due to the timing of capital expenses less than \$35,000 in FY 2017. Most capital expenses pertaining to Stormwater are tracked within separate Capital Project funds.
