CALL FOR PROPOSALS

Purpose	To increase awareness about the need for improved water quality and good storm water management techniques and their role in maintainin an overall, healthy community environment.				
Total funds available	\$2,500				
Grant ceiling	\$2,500				
Match	A match of 25% of total grant amount awarded (see Requirements).				
Financial Partnership	Although not required public-private partnerships are encouraged and will be considered a stronger proposal.				
Process for grant selection	All submitted projects are reviewed by the City of Greenville Environmental Advisory Commission (EAC). Projects will be ranked according to how well they meet the requirements outlined below. If two projects are deemed to be equally qualified the EAC reserves the right to split the grant.				
Requirements	 Projects must: Be real and measurable Project must be implemented with initial results available by the end of the grant cycle. Examples of project results include: new signage, a report that demonstrates change, presentations to external groups, etc. Research projects may be submitted with the understanding that they contain an implementation component that will be started before the end of the grant. Increase public awareness of the issue Project must include an awareness raising component to ensure the project has as wide ranging an impact as technically feasible. Examples of public awareness can be: creating and distributing a "fact sheet", holding an event where the importance of storm water management is discussed, creating signage to raise awareness on the issue, hosting an informational day, etc. Involve more than one person The project should involve a partnership among participants, suchparticipants, such as -children, and/or youth, mentors and group leaders. Demonstrate that the project has improved the quality or reduced the quantity of stormwater, and/or has enhanced education or resulted in behavioralbehavioural changes regarding stormwater run-off Some examples are: Before and after pictures documenting the repair of erosion caused by ditches or streams or caused by surface run-off. Calculating the amount of run-off that will be reused or that will infiltrate as a result of the project. Before and after questionnaires indicating a change in knowledge or behaviorebehaviour. Reporting on the habitat of the body of water is a good indication of poor or good water quality. Traditional 				

 Final report presenting the project and its outcomes Presentation to the EAC and City Council on the project Applicants must complete and submit the application package (see attached). Eligibility Organizations initiating a project located within Greenville's City Limits are eligible to apply. Projects located in the county or Greenville's Extra-territorial Jurisdiction <u>ARE NOT</u> eligible. Project actively involving children and/or youth are encouraged. July 1, 2019 – May 31, 2020 Disbursement of funds Funds will be disbursed in three installments. The first 45% will be upon receipt of invoices indicating that 7% of the first disbursement has been spent. The final 10% will be disbursed upon final submission of project a financial report and presentation to EAC/City Council. 		 analytical testing. 5. Provide 25% match This can be in the form of volunteer time, donation of materials or direct financial contribution. 6. Prepare project reporting documentation which includes: 6-month status report that describes the current status of the project and the next steps anticipated

APPLICATION PACKAGE

APPLICANT FORM

Form must be typed using Time Roman 12 point font. Hand-written applications will not be accepted

Name of Organization Submitting Application	
Contact Information	
Contact person	
• Address	
• Phone number	
• Email	
Contact Information of Grant Administrator (if different from above)	
Contact person	
• Address	
• Phone number	
• Email	
Project Name	
Project Description (max. 500 words)	

Rationale for Project (max 250 words)
• Outline why this project should be funded, i.e. what will this project contribute to improving storm water
management in Greenville?
Public-Private Partnerships (max. 250 words)
• Describe the partnership(s) and how they will contribute to the project
• Describe the participation of and now they will contribute to the project
$\mathbf{P} \leftarrow \mathbf{C} \qquad \mathbf{I} $
Partners or Groups Involved (max. 250 words)
 Describe the group(s) and how they will be involved in the project

Disks and Dosponsos	
Risks and Responses	
• List any possible risks that may hinder	
the successful implementation of the	
project and note how these risks may be	
overcome	
For example:	
Risk: resistance from school group to take on	
new project.	
Response: hold two informational meetings to	
present project; generate one page overview for	
students to take home to parents.	
Implementation Timeline	
List key dates	

Benchmarks (max. 500 words)Describe how the effect/impact of the project will be measured

Γ

Post-project	
 Post-project Detail any anticipated work that will need to be done once the grant is completed e.g. if a wetland is put in place, what will be needed to keep this functioning over the next 5 years. 	
Signature of organization Authorized
