Summary of Work

The City of Greenville is requesting proposals from qualified firms and/or individuals to provide recreational water sport opportunities (to include watercraft rentals) originating at Town Common, Greenville, NC. The successful proposer(s) will pay a \$200.00 monthly rent (April to October) along with providing some level of in-kind services to the City of Greenville – examples: organizing an annual or by-annual riverbank clean-up, or providing an instructional kayaking clinic or river excursion to City camp participants, etc. – in exchange for permission to operate.

NOTES:

- (1) The City will provide a designated operational area for the vendor(s) selected. Said vendor(s) are free to provide their services on site year round, as they deem appropriate, though no rental fee will be required November through March.
- (2) All vendor belongings (vehicles, rental equipment, etc.) **must remain within the boundaries** of the vendor's designated area, though vendor staff may, of course, manually deliver and retrieve watercraft to and from the riverbank launch area.
- (3) Initial designations of operational areas will be temporary (see attached map), since at some point in early to mid-fall 2020, at the conclusion of the Town Creek Culvert Project, Town Common's parking lot will be closed for renovations, which, when completed, will include an official and more formal designation of areas reserved for watercraft vendor operations.
- (4) The exact location of these designated areas could be subject to change through the life of the contract.
- (5) During some or all of the renovation period, which is anticipated to last from three (3) to four (4) weeks, the Town Common watercraft vendors, while still being permitted to deliver watercraft to the park, will not have

access to their operational area, and it's uncertain whether the park's riverbank launching areas can remain accessible during that renovation period.
