

Surplus Property

Do you have an old desk, file cabinet or a broken chair taking up too much space in your office? If so, you are probably thinking you can just throw it in the dumpster because it's only junk, right? The correct answer is no. Surplus property is considered to be any property that is obsolete, or its continued use would prove to be uneconomical, or inefficient or serves no useful function as to any activity or location.

The Purchasing Division is also responsible for overseeing the disposal of the City's surplus personal property and equipment. Surplus property equipment typically includes cars, trucks, heavy equipment, computers, desktops, and miscellaneous small equipment that the City no longer needs or uses.
