#### Diversity & Opportunity

At the City and GUC, we value diversity and the need to operate in a manner that acknowledges those opportunities and challenges. The MWBE program recognizes that historically, minority and womenowned businesses are not able to benefit from the same opportunities as other firms. We are dedicating our hard work to ensure history does not repeat itself.

### About MWBE

The Minority and Women Business Enterprise Program is a joint venture launched by the City of Greenville and Greenville Utilities Commission to provide minorities and women equal opportunity to do business. The City and GUC require a variety of services in which all business owners should have equal access to partner with us to provide those services at the best prices.
