

DRAFT Greenville Bicycle Facility Prioritization

										Direct Access to College/University																					
										Direct Access to/from an Existing or Funded Trail																					
										Direct Access to/from a Park or Recreation Center																					
										Top 1-5 "Most in Need of Improvement"																					
										Direct Access to/from a School																					
										Serves Low Income Areas																					
										Segment Contains a High Level of Accidents																					
										Elementary, Middle, and High School Proximity (1/2 mile radius)																					
										College/University Proximity (1 mile radius)																					
										Park or Recreation Center Proximity (1/2 mile radius)																					
										Top 6-10 "Most in Need of Improvement" from Online Survey																					
										Segment Contains Reported Bike/Ped Accidents																					
										Direct Access to Major Shopping Centers*																					
										Direct Access to/from a Proposed Trail																					
										Totals
